Fraternal greetings

Now that our organization has become older and generational, with some memories having become faint and even forgotten, it seems more apparent that we might be losing parts of our past. As more and more memories are lost, we lose more and more of who "we" are and most importantly where "we" are going. Our Founding Fathers set the foundation of who we are, and being **Loyal To Our Duty**, we must not let this be forgotten!

With all that being said, we would like to explore a path to remember and show future generations where we are going, through documenting our past. We believe this has been brought up in the past and this idea is not a new one, but at this time we feel it is time to make future advances to preserve our precious past endeavors.

We would like to explore a new committee position within our Club called the RKMC Historian. What does this consist of you might ask, well that is still to be written. But our guess would be gathering pictures from the present and the past. Recording the growth of the Organization through old documentation. Charlie Clarkson's book "History of the Red Knights" would be a good place to start this journey.

We are seeking members who would like to help preserve our past and grow the position for the future to establish this position through the eyes of our members but driven through the thoughts of older members and Founding Fathers.

Please send an email to the International Secretary (secretary@redknightsmc.com) before 8/13/2024 if you would like to be a part of the adventure.

On behalf of the International Board of Directors,

R. Spike Ostiguy
International President

1983

"Loyal to Our Duty"
