4) Platform For Election

- a) Primary reason(s) for running:

What can I do to serve my club, my community, my friends?

When I asked this question several aspects of answer came to my mind:

- Competence is one of the essential criteria (management, operation, negotiation)
- Humility to allow listening, compassion, detachment,
- The time to take into account the needs of everyone,
- The determination to do what must be done,
- The desire to actively participate in decision making and to meet new friends,
- A passion for motorbike riding, talk, share, communicate, travel,
- Team spirit to take account of the most vulnerable and to overcome all obstacles,
- The integrity to do what is good for the group, not for himself
- The confidence that can be placed in each of us.
- The loyalty that engages all of us

The reason why I have to apply as Regional Director (Region 7) is to follow the previous job for the next two years.

I will continue to work for the Red Knights Community and I engage myself to promote and group the Red Knights in Europe.

b) Vision for future of RKIMC:

My vision of the future of the Red Knights is the increase in the number of chapters in stability, sharing and brotherhood.

- Stability : by the wish of every member to stay in our community;
- Sharing : through discussion, the opening of dialogue, negotiation;
- Brotherhood : of forgiveness and understanding.  
We must show the healthy practice of the motorcycle, share the brotherhood of firefighters and never forget our motto "Loyal to our Duty" that confronts us to the responsibility to do our duty.

3) Other

My position of fire chief and my 35 years old of firefighter often remind me that humility is one of the keys to success.

Working together, the chain formed by members of chapters, negotiation and the search for solutions allow each fire brigade to overcome all situations of stress and chaos.

Together we can do it all.

Together, we can meet any challenge.

Following the words of the prayer of the Red Knights: God, let me be a part of the Human chain.
